Medical Insurance | BlueCross BlueShield

Health Maintenance Organization (HMO)

HMOs give you access to a network of doctors and hospitals, but restrict services to in-network providers only. HMO participants must choose a contracting medical group and primary care physician (PCP) to provide or coordinate their healthcare services. If you require specialty care, an outpatient procedure, or a hospitalization, you must receive a referral from your PCP. There are no out-of-network benefits.

Preferred Provider Organization (PPO)

A PPO plan offers the freedom to receive care from any in- or out-of-network doctor, specialist or hospital without a referral. Once the applicable deductible is met, coinsurance (or the cost share between you and the carrier) kicks in. The types of services that accumulate towards your deductible are office visits, inpatient hospital stays, outpatient surgeries, emergency room and urgent care visits, labs (blood work) and x-rays (MRIs, PET scans, CT scans, etc.). Prescription drug copays do not accumulate towards your deductible or your overall out-of-pocket maximum.

Generally, you must pay all of the costs from providers up to the deductible amount before this plan begins to pay. If you have other family members on the plan, each family member must meet their own individual deductible until the total amount of deductible expenses paid by all family members meets the overall family deductible. The deductible does not accumulate toward the out-of-pocket maximum.

Tips to Save Money

Preventive/Wellness Exams Covered at 100% (Except HMO BA Plan 2 - B03881)

- Preventive care is one physical exam per year per enrolled member.
- Females get an annual well-woman exam covered at 100% in addition to their annual physical exam.
- No out-of-pocket costs apply - these exams are fully covered *as long as your physician codes them as preventive.*

Prescription Drugs

- Ask your doctor if there's a generic version of any medication you're currently taking or being prescribed.
- Take advantage of the Prescription Savings Programs at major retailers.
- Ask about free samples from your doctor and/or manufacturer rebates.

High Cost Scans, X-Rays & Tests

- MRI, PET scans, CT scans, etc. are less costly at in-network free-standing imaging centers than at hospitals.
- When possible, compare cost options prior to scheduling your necessary services.

Emergency Room Alternatives

The ER is a costly experience for issues that aren't true emergencies. Below are alternatives that can offer quick care at a more affordable cost.

- Doctor's office: for non-life threatening symptoms, call and let them know your symptoms require immediate attention.
- Convenient Care Clinics: use when you don't have a primary doctor or can't get an appointment. Good for fever, sore throat/strep, coughs/congestion, sports physicals, UTIs, etc. Visit cvs.com or walgreens.com to find a clinic near you.
- Urgent Care: less costly than the ER and can treat sprains/strains, minor breaks, mild asthma, minor infections, rashes, small cuts, burns, etc.

Dental Insurance | BlueCross BlueShield

Dental Preferred Provider Organization (DPPO)

The DPPO allows the flexibility to use any dentist, in or out-of-network. Staying in-network will allow your annual maximum to last longer. If you visit a dentist out-of-network, you may be responsible for paying the bill at the time of service and receiving reimbursement later.

Dental coverage focuses on preventive and diagnostic procedures in an effort to avoid more expensive services associated with dental disease and surgery. The type of service or procedure received determines the amount of coverage for each visit. Each type of service fits into a class of services according to complexity and cost. We recommend you request a predetermination of benefits for major services.

Flexible Spending Account (FSA)

Plan Year: January 1 to December 31

Flexible Spending Accounts (FSA) allow you to set aside money on a pre-tax basis to pay for qualified medical expenses and/or dependent care expenses you may incur throughout the year. The money you put into your FSA is done so on a pre-tax basis. This means you are lowering your taxable income and also not paying taxes when the money is used for qualified expenses.

Health Care FSA

You may contribute up to \$3,400 per plan year to pay for qualified expenses for yourself and eligible family members. Funds in this account can be used to cover eligible expenses on your tax dependents, even if they are not enrolled in your health care plan. Your contribution cannot be changed mid-plan year unless you experience a qualifying life event. Eligible expenses include medical and dental plan deductibles and copays (if applicable), orthodontia expenses not covered by your dental plan, prescription drugs, prescription eye glasses and contact lenses, Lasik eye surgery and much more.

Dependent Care FSA

You may contribute up to \$7,500 per plan year to pay for qualified eligible dependent care expenses. Funds in this account are saved on a tax-free basis.

FSAs have a use-it-or-lose-it provision, so be conservative when electing how much to contribute. The Health Care FSA and Dependent Care FSA may have grace periods or allow rollover amounts. Please confirm with your HR representative.
